Programming Languages

• C, C++, Java, Python

Tools

• GitHub: 40%

SOFT SKILLS

- Self-motivated and curious to explore new knowledge and related topics.
- Possess a solid understanding of problemsolving skills.
- Willing to listen and able to communicate ideas effectively.

CAREER OBJECTIVE

I am a third-year Information Technology student. I actively participate in specialized courses to obtain certifications in the IT field while also gaining practical experience to improve my skills and effectively fulfill assigned tasks. I continue to develop my ability to complete projects on time (in previous projects, I achieved 90%–95% on-time completion) and learn how to build and optimize workflows. My goal is to help the company improve project efficiency and optimize execution time, thereby contributing to the sustainable development of the business.

EDUCATION -

SOFTWARE ENGINEERING

2022 - 2026

Ho Chi Minh City University of Technology (HUTECH)

GPA: 3.3/4.0

PROJECT

2024 Cuộc thi MY FIRST WEBSITE 2024

DƯ ÁN

Front-end Developer

06/2024 - 07/2024

MY FIRST WEBSITE - WEB DESIGN COMPETITION

Team Size:: 2 Technologies:

- · HTML, CSS, Javascript
- Implemented responsive UI using HTML and CSS, ensuring compatibility across devices (desktop, tablet, mobile).
- Designed wireframes and page layouts based on the project theme and user flow.
- Used JavaScript to add interactivity to the website.
- Participated in regular code reviews with the teammate and applied feedback to improve structure and maintainability.
- Focused on accessibility and performance, achieving a lightweight and fastloading web experience.

Back-end Developer

05/2025 - 07/2025

Rental Management Website

Source code: github.com/HaiDangIT/QuanLyNhaTro

Team size: 3

Technologies: ASP.NET Core MVC, SQL Server, Entity Framework Developed a web application for managing rental houses, including rooms, tenants, and utility bills.

- Implemented controller logic to handle form submissions, validations, and data processing using ASP.NET Core MVC.
- Connected and managed database using Entity Framework and SQL Server with code-first approach.
- Applied business logic directly in Controllers and Services, ensuring data integrity and workflow correctness.
- Collaborated in a 3-member team and integrated front-end with back-end using Razor views.
- $\bullet \ \ \ Followed \ \ MVC \ architecture \ to \ separate \ concerns \ and \ improve \ maintain ability.$
- Built features for managing rooms, tenants, invoices, and contracts.
